EDUCATION

Drexel University **Philadelphia, PA**
Bachelor of Science in Software Engineering *Anticipated Graduation: June 2028*
Awards: Dean's List, *Fall 2023* | A.J. Drexel Scholarship, *Fall 2023 – Present*

WORK EXPERIENCE

Susquehanna International Group **Bala Cynwyd, PA**
Software Developer *March 2026 – Present*

- Developed and maintained 15+ Accounting and Financial applications as part of Susquehanna's Accounting OpsDev team, supporting application reliability and ongoing operations.
- Built two internal applications from the ground up using C#/.NET, leveraging AI for efficient implementation and code testing.
- Migrated multiple applications across in-house servers and developed GitLab CI/CD pipelines using YAML configurations to automate build and deployment workflows.
- Managed application deployments, maintenance, bug fixes, and updates across multiple production environments.
- Presented newly developed applications and project updates during weekly standup meetings with development and Finance teams, communicating technical progress and functionality to technical and business stakeholders.

Society of Hospital Medicine **Philadelphia, PA**
Web Developer *March 2025 – September 2025*

- Refactored and migrated 800+ EpiServer pages to WordPress, saving the company hundreds of thousands of dollars in further licensing and maintenance costs.
- Developed custom PHP functionality and WordPress plugins to extend site capabilities and optimize workflows.
- Integrated undocumented APIs and built automated processes with Power Automate to streamline departmental operations.
- Collaborated across departments in an Agile environment to build new pages from Figma prototypes and iterate through multiple design reviews.
- Completed web tickets for updating existing pages, to maintain consistent branding and keeping relevant content updated.

Freelance **Philadelphia, PA**
Full-Stack Web Developer *June 2022 – September 2023*

- Delivered personalized programming lessons, teaching clients essential skills in standard web technologies such as HTML, CSS, JavaScript, and PHP.
- Supported clients in designing and deploying professional portfolio websites, using GitHub Pages for public hosting, and custom Linux servers with Nginx for enhanced performance and scalability.
- Guided clients in integrating MySQL databases with their PHP web applications, utilizing Docker for efficiency and testing.

PROJECT EXPERIENCE

PartLedger **Philadelphia, PA**
Developer *October 2026 – Present*

- Developed an automotive used parts inventory and profitability management system using C#, ASP.NET Core MVC, and JS.
- Built inventory management workflows to track vehicles, part numbers, acquisition costs, expenses, sales, and realized profit.
- Designed a multi-service automotive parts research tool, leveraging VIN-based OEM parts data and an eBay Product Research web-scraping API, to identify profitable resale opportunities across junkyard vehicle parts.
- Implemented AI-powered listing validation to analyze product compatibility, condition, bundle quantities, and price inconsistencies, improving market price estimates and profitability analysis.

WreckMC **Philadelphia, PA**
Founder, Lead Developer *July 2023 – March 2026*

- Directed the development of a popular game server, overseeing a team of developers to design and implement unique features that enhance user engagement and server performance.
- Designed and developed custom Java plugins to introduce new content to the game, and resolve application-specific issues.
- Built and maintained an admin panel web application, which interfaced with the game server through a custom-built Java API, streamlining server management from outside of the game.
- Maintained server performance, security, and stability, sustaining a home-built Linux server for web and server hosting.

TECHNICAL SKILLS

Languages: C / C# / Java / Python / JavaScript / TypeScript / PHP / SQL / HTML/CSS / Bash / YAML
Frameworks & Technologies: .NET / ASP.NET Core MVC / Blazor / React / Node.js / Express.js / REST APIs / WordPress
Tools & Infrastructure: Git / Perforce / GitLab CI/CD pipelines / Docker / Linux / Microsoft Office 365 / Google Suite / Oracle SQL Developer / Microsoft SQL Server / DBeaver / Octopus Deploy
Other: Agile Methodology / Test-Driven Development (TDD) / Power Automate / Figma / Adobe Creative Cloud / Sony Vegas
